**The Centre of Medical Student Education at Sheikh Shakhbout Medical City (SSMC) is dedicated to training exceptional physicians who deliver compassionate care while spearheading healthcare advancements in Abu Dhabi, the GCC region, and beyond.**

### **Our Goals and Objectives**

The Centre of Medical Student Education is dedicated to fostering a nurturing, educational environment that prepares the medical leaders of tomorrow. Our goal is to enhance the mental and physical well-being of all community members by offering:

- An innovative and contemporary curriculum
- A team of committed and experienced faculty members
- Exposure to highly complex medical cases, in a state-of-the-art facility
- An advanced simulation centre for clinical skills training
- Increased opportunities for acceptance into international post-graduate training programmes
- The chance to co-author publications in international journals, alongside faculty and peers

### **Our Services**

- Core clinical clerkships for Period-3 Khalifa University students
- Core and elective clinical rotations for Period-4 Khalifa University students
- Core clerkships for final year Gulf Medical University students
- Selected clinical clerkships for UAE University students
- Observership training for medical students from international universities

### **Extra Curriculum Programme for Medical Students**

- Leadership Programme for Medical Students
- Research Programme and Opportunities
- Medical Documentation Programme
- Humanity in Medicine Programme
